

SKID TANK MONITORING WITH FLOWMETER & RFID

LESS WORRY ! LESS RESTRICTIONS ! LESS PAPERWORK !

Our monitoring system accurately measures the diesel in your tank, day and night -24/7

Accurately measure your supplier delivering & your vehicle refuelling

WHY CHOOSE US ?

It's **NOT** just about sales & purchases

✓ "it's about the **COMMITMENT**"

"it's about the **SUSTAINABILITY**"

"it's about the **RELATIONSHIP**"

SCENARIO 1

15,000 litre

Order 15,000 litre of fuel.
Is the deliver amount same as you order?

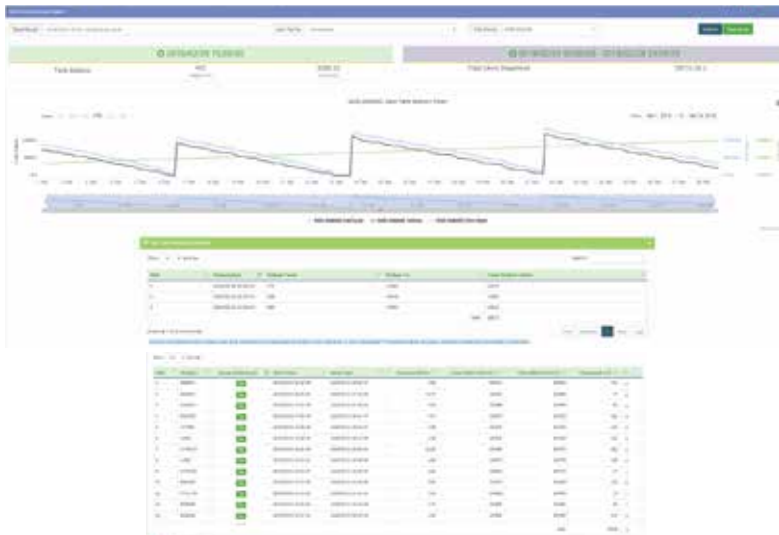

SCENARIO 2

Who Refueled?

Which truck refueled at the skidtank?
" How Many Litre, By Who;
From Which Skidtank; At What Time."

The System

Road Transport is an industry that relies heavily on fuel.

A self contained fuel storage tank at your depot or yard can provide your business with the opportunity to save cost through the bulk purchase of fuel.

Gussmann Technologies has a range of dispensing and skid tank management options available that enable you to control who has access to your fuel with analysis and reporting.

Skid Tank Solutions combined with fuel management ensures your business has the necessary tools for efficient refuelling of your fleet.

- 1 Detail and summary report of supplier bulk deliveries.
- 2 Detail and summary report of refueling by your vehicle/ driver RFID, date and time.
- 3 Accurately measure against the volume in your vehicle tank and the refuel dispensing.
